ABOUT ME

Passionate Christian, Husband, Father and Software Developer.

I love analyzing a problem, coming up with a solution, coding it , failing and trying again until the problem has been solved

" Always code as if the guy who ends up maintaining your code will be a violent psychopat who knows where you live. "
– Unknown

💼 WORK EXPERIENCE

Senior Web Developer
🏢 **Rain Agency** 📅 Aug 2017 - ACTUAL

Improved performance of existing .NET system and helped in the migration process to the .NET core. Supported the development of Sitecore sites and implemented data analysis tools and Recommendation systems based on collaborative filtering

Lead Developer
🏢 **OOQIA** 📅 May, 2016 - Aug, 2018

Developed and architected software solutions, for different industries and market segments, implementing the best tech stack according to the type of the project. Coordinating and training the team as needed and acted as Lead developer for decision making and as a pull request reviewer

Full Stack Developer
🏢 **Partsbase** 📅 Aug 2015, - May, 2016

Worked with a team of developers across different countries in web projects related to inventory, e-commerce and service providers using enterprise architecture with ASP.Net for REST APIs and AngularJs for SPA application.

Senior Web Developer
🏢 **CISA AGRO** 📅 Jun, 2013 - Feb, 2015

Adapted an In-House ERP to a SaaS business model. Some of the tasks performed: change from Webforms to MVC, fix conceptual design problems, database normalization, UI and UX improvements, create a DevOps workflow, migrate infrastructure to the cloud, application maintenance.

🎓 EDUCATION

Computer Engineering
🏛️ National University of Engineering 📅 Apr, 2008 - Apr, 2012

(UNI-RUSB) Graduate from college with honors

🎓 E-LEARNING

Full Stack Developer
🏛️ Pluralsight 📅 May, 2013 - ACTUAL

My Netflix for software development. Without a doubt my career would not be as successful if it weren't for Pluralsight, I have learned so much here from strengthening my programming foundations and SOLID principles to the most advanced machine learning techniques. At some point I would prefer to sit and watch a Pluralsight course than to see any series or movie

Artificial Intelligence Nanodegree
🏛️ Udacity 📅 09 Oct, 2017 - March, 2018

The Nanodegree program that got me started on AI without a doubt the most challenging course I've taken so far. It make me feel so dump so many times and make me wonder at how genius some people are and have been in the past but this was good not only because I finally made it but because it makes me realize I sill have a lot to learn and not only about programming but also about Math and statistics.
